

Set Record High Enrollment At 3,701

First Big Pep Rally To Be Friday Night At Seven

New Figure Also Set With 1,170 Frosh Enrolling

By Lee Clyburn
Tiger News Editor

Another matriculation-registration period at Clemson has come to a close and another record enrollment has been set.

Late Tuesday enrollment figures gave a grand total of 3701 students who had matriculated. This figure exceeds that of last year by nearly 160 students.

Students started the long registration operation Monday before 12 o'clock. Lines formed behind desks set up in the field house Monday afternoon. The process was easy for some while for others a hot, tedious experience. Multitudes of students paraded back and forth between the dormitories and the field house all day Monday and most of Tuesday. Registration continued on through Tuesday afternoon.

Of course, with the new college enrollment record, a record freshman group reported to the campus. According to Mr. K. N. Vickery, Registrar, the number of new students entering Clemson for the fall semester was around 1174 individuals. This betters the previous 1955 record by nearly 75 students. College officials and personnel have been extremely busy trying to get these freshmen orientated for the start of the new school year.

Meanwhile with the increased number of students, the dormitories have been filled to capacity very quickly. There are reportedly three and four persons occupying some of the larger rooms in

the sixth barracks. From the viewpoint of orange rat caps and shaved heads, there are rats everywhere. Rats occupy nearly every other room in the dorms.

With these things in mind, it's no wonder why we all gladly wish for classes to resume and things to go back to normal again. Certainly, our hats are off to those of the faculty and school personnel who helped to relieve some of the congestion and confusion this week.

Bids Received For Building

Bids were received Thursday morning for construction of Samuel Broadus Earle Chemical Engineering Building. The building will be financed by a \$1,175,000 gift from the Olin Foundation.

Plans and specifications for the new building were prepared by the engineering firm of Lockwood-Greene Engineers, Incorporated of Spartanburg.

The Earle building contains approximately 50,000 square feet of floor-space. The three story brick structure houses four classrooms, seven offices, two seminar rooms, a lecture room, design room, computer room, library and reading room, and 25 laboratories.

Equipment for the new building will include: A gas chromatograph, used for separating and analyzing complex mixtures, a mass spectrometer used as a precise analytical instrument for determining the chemical ele-

(Continued on Page 6)

Nothing Left But Eight A. M. And Saturday

As always, the only classes available were at the worst times. Monday and Tuesday saw the rush of class registration in the field house. With a record enrollment registering, classes filled up quickly. Pictured above is a group of

Clemson men hopefully signing up their class cards with their respective professors and the professors wistfully looking for the end of the lines.

Insurance Offered To Student Body

The Student Government, headed by President Joe Fox, has begun its year's work with the sale of the student health insurance.

This insurance, which is available at a great savings to all students, covers all sickness and accidents at a cost of only \$15 a year.

Joe expressed a desire that all students would take advantage of this opportunity to get the insurance. Anyone wishing to take the insurance should contact Ted Davenport in room C-732.

With all members elected except the Freshman Class President, the Student Government is ready to begin another year of service to the student body. Student Government officers are: Joe Fox, president; Tom Anderson, vice-president; M. B. Loadholt, secretary; Jimmy Smith, senior class president; Tom Harmon, junior class president; and Rick Ivester, sophomore class president.

Members of the Standing Committee are: Ted Davenport, chairman of Ways and Means Committee; Luther Bigby, chairman of Elections Committee; Ronnie Hillhouse, publicity director; and Steve Beasley, campus director for National Student Association.

Senior Parking Stickers Ready

Jimmy Smith, president of senior class, announced this week that seniors may pick up their senior parking stickers at the building and grounds office.

The stickers, bound in orange to distinguish them from underclassmen, may be picked up with either a senior's regular sticker which he got at the matriculation or the number of the sticker.

Jimmy also said Judge Cloaninger had promised rigid enforcement of the parking regulations, especially senior privilege parking.

Pres. Edwards Holds Reception For Freshmen

The President's Reception for the new students was held in the lobby of the YMCA Monday night. Girls were invited over from Anderson to make the reception an enjoyable affair.

Greeting the freshmen were Acting President and Mrs. Edwards, Dean and Mrs. Cox, Mr. and Mrs. Vickery, Joe Fox, president of the student body; Tom Anderson, vice-president of the student body, and Charles Spencer, president of the YMCA Cabinet.

Other school officials attending the reception were the deans of the various schools: Col. Douglass, head of the Army ROTC; Col. and Mrs. Thompson, newly appointed head of the Air Force ROTC and Mr. and Mrs. Frank Howard.

The new students were served punch, ice cream and cake.

Freshmen Hold Surprise Rally

The first big impromptu rat rally of the year was displayed in all its glory Tuesday night. At first it was a small group shouting, cheering and marching in the quadrangle, but as more rats gathered the crowd became a little rowdy.

Under the direction of some unidentified upperclassmen, the rats marched through the dorms, increasing in mass as they routed other rats from their rooms to join in the "fun." They begin to spray different sections of the dorms with fire hoses which resulted in slight water damage to E section.

The college police made a futile attempt to disband the mob, but their tactics failed. Several upper classmen were rushed and carried away with the rats yelling, "Pool Him!"

WSBF Begins Broadcasting

The Student Broadcasting System of Clemson College will begin broadcasting on a regular basis at 6:30 p.m. tonight. The station broadcasts on an assigned frequency of 600 kc. by authority of the Federal Communications Commission, in conjunction with the Intercollegiate Broadcasting System.

Programs featured for opening day will be: "The Fox," with Marty Fox; "Studio X," with Ned Rutledge and Julien McDonald; "This Night of Music," with Dan Richards. The programming department has plans for varied and diverse program style and material this fall.

AFRO To Head

COL. CLAUDE B. THOMPSON

Col. Thompson New AFROTC PAS & T

Col. Claude B. Thompson, of Camden, Ala., is the new professor of air science of the Clemson College Air Force ROTC detachment. Col. Thompson, a veteran educational leader, has replaced Col. Lloyd H. Tull, who is retiring from the Air Force.

Col. Thompson attended Alabama elementary and high school, and received his degree in education from Auburn in 1932.

Having entered the service in November, 1940, he has since completed assignments as an instructor in tactics at Officer Candidate School, Ft. Belvoir, Va., and as deputy commander of the U. S. Institute of Technology. This institute provides professional education for selected engineering personnel. A fully accredited engineering college, it offers courses largely on the graduate level.

The new head of the Clemson AFROTC program has also served two overseas tours in Africa and the Middle East during World War II, and with the Third Air Force in London, England, from 1951 to 1954. Decorations and awards include the Legion of Merit, Commendation Ribbon and Moroccan Legion of Honor.

Col. Thompson, his wife and their three sons have established residence at 117 Mitchell Drive in Clemson.

Freshmen Required To Attend

By RICHARD SHICK
Tiger Sports Editor

The first big pep rally for this year will be held in the amphitheatre at 7 p.m. Friday. Leading the cheers, will be this year's head-cheerleader, Tony Vickers.

Tony takes over the head-cheerleading duties this fall from last year's top yeller, Fletcher Smoak.

Returning from last year's squad to aid Tony this year, are Martin Anderson, Erwin Abell and Barbara Dillard. Two more girls are yet to be chosen, while Paul Wright and Jow Bagwell have already been elected for the coming year.

With last year's graduation, Clemson lost their Country Gentleman, cannon firer and Tiger. But these positions were not long vacant, as Eddie Gallup, Buddy Putman and Bill McCowan, respectively, were elected to fill these positions.

But leaders are no good unless there are some able bodies behind them to be led. It is up to the student body to create enough noise and spirit to lead the Bengals to victory.

Every upperclassman is or, should be, familiar with all the school cheers and the Alma Mater. But, they can not do it alone; it takes the combined effort of the entire student body. That includes all the freshman class.

All freshmen are required to attend all the pep rallies. All rats must know all the school yells and the school songs. When Tiger Rag is played, they must immediately run to the flag pole on Bowman Field, chip some paint off, and take these chippings to their respective hall counselors.

At the rally, Head Football Coach Frank Howard, will introduce the entire squad to the student body. Everyone should be there to meet this year's Tigers, who will take on the University of Virginia on Saturday at 2 p.m.

As you all know, our Tigs have been rated in pre-season polls as one of the toughest teams in the nation. The majority of the polls rank us in the top 10, while almost everyone picks the Bengals as the team to be in the driver's seat when the dust clears away after this year's race for the number one position in the Atlantic Coast Conference.

So, let's everyone be there to support the Tigs Saturday when they take on the Cavaliers.

CARVE THE CAVALIERS.

Plans For Better Taps Released

By Ray Griffin

Plans for a larger and better Taps have been released by the 1959 Taps staff. A new approach to yearbook design is being used which features many more informal scenes throughout the school year. Also featured will be a special graduate section, if enough graduates have their pictures made. Additionally, seniors will be divided into their respective schools.

Gasper-Ware, photographers of Atlanta, who were the class photographers prior to last year, will be back. Their system for identification cards includes names as well as numbers which should eliminate many previous mistakes.

Class pictures for the 1959 Taps will be made Monday through Friday morning of next week between the hours of 8-12 a.m. and 1-5 p.m. Those who have not made an appointment may have pictures made during their vacant periods.

Announcements regarding club space will be made later. The new and better 1959 Taps is now on sale for \$6.00.

Gladiolas Return To Campus

The Gladiolas return to play at Rat Hop after a successful Spring Hop visit last year. The Lancaster, S. C. quartet led by Maurice Williams are top recording artists, known best for their top tune "Little Darling" which was number one in the nation for several weeks.

CDA Kicks Off New Year With Rat Hop

September 26th and 27th mark the dates of the big dance weekend during which the Central Dance Association will present Rat Hop.

The music for the Friday night dance will be furnished by the Jungaleers, and the nationally famous Gladiolas led by Maurice Williams will perform for the Saturday night dance.

The Gladiolas, led by Mr. Williams, are best known for their rendition of "Little Darling," which was the number one hit across the nation for several weeks during the early part of 1957. They originated in Lancaster in 1956. Prior to this the group was known as the Royal Champs.

The story of their success began during the Christmas holidays of 1956. They drove to Nashville with only forty dollars and auditioned before Tony Young, President of the Excella Recording Company. He immediately accepted two of their records. Since then they have made many hit recordings.

The Gladiolas were at Clemson's Spring Hop last year and a tremendous crowd enjoyed the fine rhythm and blues that they play so well.

Highlighting the Friday night dance will be the selection of the Freshman Queen. She will be chosen from the dates of the Freshmen attending the dance and will be the recipient of a silver loving cup presented by Clemson Jewelers. The Queen and her date will also receive a number of other prizes donated by local merchants. She will be presented to the student body at the football game on Saturday afternoon.

The dances will be held in the college dining hall. The Friday night dance will be formal and the Saturday night dance will be informal. A dark suit and black bow tie will be permissible for the Friday night dance.

The dances will start at 9:00 p.m. Friday and 8:00 p.m. Saturday. The dances will last four hours. The prices will be \$2.50 for Friday night and \$3.00 for Saturday night; block tickets will

Fred V. Tweed To Tour Globe

Fredrick V. Tweed III is back from his summer vacation only to depart from Clemson once more. This time the closest thing to the perfect Clemson man is going to travel all the known surface of the globe. Fred plans to see some of the world that is unknown also. In an exclusive TIGER feature Tweed will report on his activities via wireless, radiogram, and/or native drums. During his short stay at Clemson this week Fred described a harrowing and near fatal experience he had this summer. While working as a bartender in Bay Head, N. J., Tweed had the opportunity to race his lightning yacht, The Bengal, off the New Jersey coast. During a sudden squall Tweed and his crew came within three feet of being smashed to matchwood in the Manasquan inlet. Tweed and his crew rallied valiantly in a last effort and made the safety of calmer water.

TIGER readers can expect weekly features of fabulous Fred Tweed's exploits in his latest adventure. No doubt the name of Clemson will be widely known after this famous traveler returns.

Concert Series Plans New Ticket System

A new and convenient system has been arranged for the purchase of season tickets to the Clemson College Concert Series. High school students, students of other colleges, and the wives of those attending Clemson may buy a season ticket for \$3.00. These economical and time-saving tickets may be obtained at the President's office located in the college's main building, Tillman Hall.

The five-date Concert Series, October to April, has been announced for 1958-59. The season will open October 2 with Eleanor Steber-American soprano who recently won new acclaim for her portrayal of "Tosca" and the creation of the leading role in the new opera, "Vanessa."

TO BE CHOSEN FROM COEDS

Winner Of Miss Tigerama Contest Will Preside Over Gala Affair

Again this year a Queen of Tigertown will be selected from the co-eds of Clemson College. The "Miss Tigerama" contest is open to all Clemson co-eds. Those co-eds wishing to enter the contest will submit a picture of themselves to the "Tigerama" office on the loggia before October 3rd. The picture should not be less than a 5x7 print.

This year's "Miss Tigerama" will be selected by a popular vote of the student body. The students will vote on seven beautiful co-eds who will be the finalists. The finalists will be selected by judges who will be chosen by the directors of "Tigerama," Ronnie Ellis and Bill Hill.

It is planned that last year's "Miss Tigerama," Diane Austin, will crown the new queen during intermission. Diane was selected as a "Miss Universe" contestant, representing her home state of Georgia. She placed high among the top ten finalists in the "Miss Universe" contest.

The contest is reserved for Clemson co-eds only, and all co-eds are urged to take advantage of this privilege. Your full support will make "Tigerama" an even more enjoyable affair than last years. "Miss Tigerama" will reign over the festivities and glamour of

"Tigerama." Enter your photograph at the "Tigerama" office on the Loggia before October 3rd.

Dr. Schirmer Elected To Faculty Senate

Dr. Frank B. Schirmer, professor of chemistry and geology at Clemson, has been elected president of the Faculty Senate for 1958-59. The Faculty Senate makes suggestions to the educational council or the Board of Trustees. He replaces J. H. Langston, who resigned as a professor of textiles to accept a position at Howard University in Birmingham, Alabama.

Other officers are H. M. Felder, Jr., assistant professor of English and Modern Languages, vice-president, and J. L. Edwards, professor of mechanical engineering, secretary.

The executive committee for the year comprises Ben Goodale, head of the dairy science department; John Lane, professor of English and Modern Languages; Carl McHugh, associate professor of drawing and design; J. V. Walters, associate professor of textile weaving and design; Emory A. Gunnin, associate professor of architecture, and the three officers.

Huggin New ROTC Regimental Commander

Cadet Colonel Benjamin A. Huggin, a ceramic engineering major from Greenville, was announced this week by Colonel George A. Douglass as regimental commander for the current school year.

The additional following students have also been assigned rank in the Army ROTC Cadet Regiment:

The members of the regimental staff under Cadet Colonel Huggin's command are executive officer, Cadet Lieutenant Colonel William M. Bruner from Clemson; regimental S-1, Cadet Major James H. Strickler, chemical engineering major of Folly Beach; regimental

S-2, Cadet Major James N. Townsend, mechanical engineering major of Rock Hill; regimental S-3, cadet Major Rufus Sheard, anti-falls; regimental S-4, Cadet Major James E. Smith, civil engineering major of Florence; and regimental PIO, Cadet Captain Tom Anderson of Greenville.

The 1st battalion commander is Cadet Lieutenant Colonel J. C. Edwards, chemical engineering major of Cowpens; executive officer of first battalion, Cadet Major Alfred N. Bechtler, chemical engineering major of Rock Hill; first battalion S-1, Cadet Captain Larry O. Gantt, industrial management major of Wagner; first bat-

mal husbandry major of Calhoun; S-2, Cadet Captain Junius R. Smith, industrial management major of Greenville; first battalion S-3, Cadet Captain Gerald S. Adams, forestry major of Spartanburg; and first battalion S-4, Cadet Captain John B. Smith, chemical engineering major of Athens, Georgia.

The second battalion commander is Cadet Lieutenant Colonel William R. Hill, industrial management major of Greenville; second battalion executive officer, Cadet Major Tucker of Inman; second battalion S-1, Cadet Captain William J. Weeks, agricultural major of Florence; second bat-

talion S-2, Cadet Captain Joe T. Bailey, chemical engineering major of Clemson; second battalion S-3, Cadet Captain Frank Sams, chemical engineering major of Clemson; second battalion S-4, Cadet Captain Joseph M. Fox, textile chemistry major of Inman.

Cadet company commanders are announced as follows: A-1, Cadet Captain William L. McElrath; B-1, Cadet Captain James L. Merchant; C-1, Cadet Captain Robert M. Erwin; D-1, Cadet Captain Vanik S. Eaddy; A-2, Cadet Captain Jim D. Rabon; B-2, Cadet Captain Larry D. Rickenbaker; C-2, Cadet Captain Joe C. Culp; and D-2, Cadet Captain Norman D. Darden.

EDITORIALS

DR. POOLE INSTIGATED MUCH OF SCHOOL'S PROGRESS

During the past twenty years the Clemson campus has been the scene of many changes. New buildings have been erected where brush and undergrowth once were prevalent; academic standards have been raised; enrollment has set records year after year; the cadet corps has been abolished. The list of changes would cover this entire newspaper if they were presented in their entirety. One can feel the air of progress that surrounds the campus the moment he approaches the gates of the college. Who, we might ask, is responsible for this bustling activity, this transition into a Clemson that is one of the greatest educational institutions in the country?

The man who is most responsible for this progress, the man who has seen the college through its greatest period of change, died last June. Robert Franklin Poole, Clemson's president for eighteen years, a true educator, and one of Clem-

son's most loyal supporters, will long be remembered by the students and alumni of this institution. It is difficult to find words that will describe a man of Dr. Poole's caliber. His untiring efforts to build a better Clemson, his understanding, sympathetic attitude toward student's problems, and his sense of responsibility toward the faculty and administration will not be forgotten for many years. Posterity will recall him as a proud man leading a proud institution.

Although Dr. Poole is no longer with us the influence of his great work for Clemson will be felt far into the future. He has given Clemson the impetus to grow, to prosper, to progress. What is said in this editorial about him will soon be forgotten. But we say "thanks." Thanks, Dr. Poole, for making Clemson what it is today. May God bless you.

INTER-DORMITORY COUNCIL

Something new has made its appearance on the campus this fall, something that will effect all of those students who reside in the dormitories. We are referring, of course, to the Inter-Dormitory Council, or IDC. It is encouraging to note that the administration has finally seen fit to do something about the lagging school spirit and the apparent disintegration of the closeness of Clemson students since the cadet corps was desolved three years ago. Since that time the student body has been allowed to drift along at the mercy of the individual's own devices during a so-called "transition period" which we were afraid would develop into an indefinite time. Many students realized the seriousness of such a situation but they were thwarted in their efforts to rectify it.

But now a step is being taken in the right direction. The IDC approaches the

fraternity system on a large scale. Every student at Clemson who lives in the dormitories is allowed, or rather required, to take part. The system is workable—on paper. Only the co-operation of every student can make it a real success and we encourage you to give the IDC your wholehearted support.

Whenever a new system of any kind is inaugurated there is a period in which "growing pains" develop and the IDC will certainly be no exception. If we realize this fact from the start we have won half of the battle. Let us not throw up our hands in dismay when problems in the system arise. Let us be even more determined that we will make the IDC work. If we do, it is our opinion that the entire student body will benefit greatly from it.

STRIVE FOR BETTER YEAR

As we begin another year of college work it is an excellent time for each of us to take stock of ourselves, especially the upperclassmen. A few moments of reflection on our past years at Clemson will bring to mind many things: gala dance weekends, those unbearable examinations, professors who have not pleased us with their marks. These and other thoughts come to mind and from them perhaps we can profit from our past mistakes. We might ask ourselves "Am I getting all that Clemson has to offer?" In most cases the answer will be, "No."

Now is the time to make a determined effort to make the remainder of your stay at Clemson more beneficial

than the past. Remember that we are here primarily to get an education. Therefore, don't neglect your studies—remember that it is easy to let your work go but quite difficult to catch up. Those extra points come in handy as the year progresses.

We do not mean to imply that extra-curricula activities should be completely left out. These activities are an important, wholesome part of college life and we should give emphasis to them. But, as we begin this new year, let us resolve to ourselves that it will be our best year at Clemson. Better for us as a student and better for the college as a whole.

WEEK'S PEEK

Lack Of Morals Forces Laws

By TIM TRIVELY

"He who steals my purse steals trash."

This condition may exist for faculty and for those students who frequent other schools on numerous weekends, but it is certainly a different situation when articles of great expense are involved.

As a student, you should read this short column because it will enlighten you to many disturbing facts concerning student's lack of assuming responsibility, as well as theft's that have occurred on the campus, for which the students are collectively under SUSPICION.

ROTC ECONOMY IDEAS COMMENDED

The Army ROTC program is famous for its series of lectures on economy through the principle of supply and demand. The Army ROTC is to be commended for this effort. Whether the students realize it or not, it behooves them to be particularly free of any suspicion by the college individually or collectively. You know that light bulb in the hall that is now in YOUR lamp? Well, it just cut you out of having National Fraternities. Why? The lack of a sense of responsibility.

Our twentieth century society has watered down the word stealing so much that it now reads acquisition. Instead of thinking, we, as a society, have been rationalizing. Furthermore, we have rationalized the moral right out of stealing. Where do you think the flaw is?

"Public Property" is a sign that has become synonymous with the rationalization—MINE. Public, oh yes, that's me. So we get to college and what do we read? "Clemson College is a state supported institution." Who is the state? But of course, the taxpayer. Well sir, my daddy pays taxes so the school is here for me. The school may be here for you, but I assure you, it is not yours.

STUDENTS LACK MORAL RESPONSIBILITY

It was the lack of moral responsibility by society that forced the state of South Carolina to protect its property by passing laws prohibiting theft. Even today, modern and progressive as we laud ourselves, the state has to pass a law to fine persons who steal from its PUBLIC libraries. The rationalizing student will say, "well that's all them out there in society, not we here at Clemson." Degrading as it may seem, this rationalization is nonetheless inaccurate.

Here, the student wants to know just what the college is losing. The range of loss by the college is terrific. Here are but a few: books, engineering equipment, dining room equipment, furniture, shrubbery, and produce of horticulture developments—and that seems a fruitful enough ending.

Since Clemson is public property, why are NOT guilty offenders and offences made PUBLIC?

TALK OF THE TOWN

Parking Stickers For Seniors Ordered By Physical Department

By CHARLES SPENCER

Seniors "trickle-ating" earlier this week were chagrined to learn that the parking stickers issued them for their car windshields were not one bit different from those handed to the lowest rat—and other underclassmen. What, for crying out loud, was to keep some ungrateful sub-senior from boldly driving into a senior parking lot some dark night and leaving his car there to occupy the space of some poor, weary fourth-year man who in turn would have to park somewhere in the vicinity of the Seneca River because the senior lots were overflowing with unauthorized cars???

Well, before you could have said "Parking Sticker" over the dining hall public address system that nobody can understand, good ole' Jim Smith, president of the senior class, hoped right over to put a bug in the ear of Judge Cloaninger about the terrible injustice being wrought upon the poor, unprotected seniors.

Now Judge Cloaninger, if you haven't met him, and some who have will call me a liar, is a reasonable man. He caught on right away, and promised to do something about it as soon as possible. Of course, he said, the seniors must realize that keeping unauthorized cars out of the senior lots is a problem for the seniors, exclusively, but he supposed that the college could help out as far as identifying which cars are seniors' and which are not!

Now you don't have to believe it if you don't want to, but those people down at the Physical Department got on the phone and called their suppliers in Augusta and put in a special order for those senior stickers, and had them made up in two days flat, and sent a man all the way to Augusta Tuesday morning just to pick up those stickers, and no doubt by the time you read this, dear senior, you have probably turned in your old sticker for a beautiful, shiny new one that says S-E-N-I-O-R! Can you beat that for service? I doubt it... not at Clemson College.

I wish I could add on to this: and all the seniors parked their cars happily ever after in the Senior parking lots and never had any trouble with underclassmen hornning in on their senior privileges, forever after. But such, dear reader, is not the case, as both of us well know. The senior class is going to form a committee to inspect the senior lots regularly, and they are going—repeat, are going—to find unauthorized cars there from time to time during the year. It's just one of those things.

Since we went this far, we may as well finish the story. Out of those "unauthorized parkers" there will probably be a few during the year who will persistently return to the happy parking ground despite friendly persuasion and unfriendly threats from members of the senior class.

Who knows, there may be some underclassmen who want to park there bad enough to risk being summoned to traffic court to face charges of violating college parking regulations, with malicious and wilful intent to infringe on the rights and privileges of the senior class. But then, I don't know. Do you reckon anyone would go that far? I just dunno.

A Word To The Wise

By ART LINDLEY
Student Chaplain

Galatians 6:7... "For whatsoever a man soweth that shall he also reap."

A tree soweth its roots deep into the ground and reapeth beauty for everyone. A child seals the bond of marriage and reaps the love of his parents. Whatsoever a man sows that he shall surely reap. If a young student puts his all into his school work, he certainly will be in a better position for the future. This sowing and reaping goes along with the bad as well as the good.

If a man sows corruption that also will he reap. Man has the honor of choosing for himself—choose wisely stu-

dent. In these fast times we tend to sow wrong seeds.

A long time ago in Perth, Ontario, Canada, John and David Livingstone decided upon their life's work. John wanted to become a millionaire and David a missionary to Africa. At his death John was the richest man in Perth. David died a pauper in a hut in Africa. John could certainly not take his money with him. David had an experience all the money in the world could not buy. He had lived and died for his fellow man. He gave others the opportunity to visualize the Christian belief.

"Whatsoever a man soweth that shall he also reap." Let's take time out each day to think about what we are sowing. May each one of you have a prosperous school year at Clemson.

LET'S TALK IT OVER

Others' Indifference Hurt True Students

By ED GETTYS
Associate Editor

In order to achieve a creditable result in any undertaking, one must possess the frame of mind which justifies the time and material resources that are channeled into a project. Without this attitude only mediocre ends may be obtained at best and a certain emptiness is experienced.

Unfortunately, such an attitude is prevalent on this campus.

There are far too many students who lack the desire to excel in the quest for knowledge. A tendency to drift into the "Ivy League" casualness which may border on indifference exists. This way of life is the latest with re-

spect to conversation, social relationships, and appearance, but should such a random regard be taken in the organized pursuit of education?

Why do so many of us fit into this category? Perhaps a review of the varied motives which placed us in college would help. Many of us are here because our parents expect us to gain a higher education. Others came to preserve old friendships. The majority came in the realization that much more may be obtained materially through college. There are some few, who, in addition to the above, have a longing desire to greatly increase their mental capacity.

These true students are handi-

capped greatly by the low standards which the other students necessitate. If all students pursued their studies with a little more fervor, student life here would be balanced somewhat more evenly. At present there is so little of everything except football that there is no balance. If the interest in academics were brought to the level of that in athletics and social events increased accordingly, Clemson would approach collegiate Utopia.

Who is to blame for this pathetic lack of balance? Most certainly the students of bygone days have left their lackadaisical spirit with us almost in the form of tradition which pervades student attitude within and without the classroom. This tradition is very willingly being followed now. Another factor may be the attitude of many members of the faculty. An atmosphere is noticed in classrooms at times which convinces one that the professor is not giving his all to his students. Perhaps he feels that his so-called "scholars" are not sufficiently appreciative of his knowledge. Is this not in reality a fault of the students?

In this, the beginning of a new term, let us demand that our faculty open new fields through their best instruction. Let us meet that challenge with appreciative interest and response. In this way we can transform Clemson academically into an institution of which we can truly be proud.

ONCE MORE UNTO THE BREACH

Today begins my fifth year of writing this column, and what an eventful five years it has been! What things have these old eyes not seen! What great discoveries have rocked the world—the anti-proton, for instance, and the anti-neutron, and high-low split, and Brigitte Bardot!

In these five years it has also been discovered that American smokers like two kinds of cigarettes—filter and non-filter. The Philip Morris Company makes both kinds. I mention the Philip Morris Company because they pay me to mention the Philip Morris Company. They sponsor this column. I write it and then they give me money. Then I take the money and pay my grocer, my butcher, my gardener, and my four madrigal singers. In this way full employment is maintained and we avoid a repetition of the Panic of 1873 when bread riots killed over 98 million people in Muncie, Indiana, and millions of others were reduced to ghost-writing Ph. D. theses to keep body and soul together.

But enough of gloom. Let us get back to cheerful subjects, like the products of the Philip Morris Company. For those of you who wish filter cigarettes there is Marlboro, which now, more than ever, gives you a lot to like—a brand new improved filter and a wonderful flavor that comes breezing right through. For those of you who wish non-filter cigarettes, there is Philip Morris, a mild natural blend, flavorful, fresh, and thoroughly agreeable. For those of you who can't decide between filters or non-filters but have an affinity for packages, I should like to point out that both Marlboro and Philip Morris come in both the crushproof Flip-Top Box and the good old-fashioned Soft Pack, and you will surely want several of each for your collection.

Speaking for myself, I smoke both Marlboro and Philip Morris in both packs. What I do is make kind of a fun thing out of it. In my bedroom I have four signs, one on each wall, which say in turn: "PHILIP MORRIS—SOFT PACK", "PHILIP MORRIS—FLIP-TOP", "MARLBORO—SOFT PACK" and "MARLBORO—FLIP-TOP". When I get up in the morning I put on a blindfold and then my faithful cat Rover spins me around six times and then, with many a laugh and cheer, I walk forward with my finger outstretched and the first sign I touch is the cigarette I smoke that day!

As you can imagine, this little game has been a great source of merriment to Rover and me, except for one untoward incident one morning. I was stumbling around in my blindfold and fell out the window right on top of a man named Fred R. Timken, a census taker, and broke all his lead pencils. He was cross as a bear, and though I offered him both Philip Morris and Marlboro in both the Flip-Top Box and Soft Pack, he refused to be mollified. In fact, he refused to put my name down in the census, so when you read population figures of the United States, will you please add one?

But I digress. We were speaking of Philip Morris and Marlboro who will bring you this column throughout the school year. In this space I will take up vital aspects of undergraduate life, like high-low split and Brigitte Bardot, and it is my fondest hope that the column will be half as much fun for you as it is for me.

The makers of Marlboro and Philip Morris welcome you to another year of fun and games from Old Max, and another year of good smoking from us. Filter or non-filter, pick what you please—and what you pick will please you.

Dr. Poole's Legacy -- Clemson College

By Tom Anderson III
Student Government V.-President

"There is no death! the stars go down
To rise upon some other shore,
And bright in Heaven's jeweled crown.
They shine forever more!"

John McCreery

The sixth day of June has a special niche in the annals of world history. It is remembered as that momentous occasion when the Allied forces stormed into Normandy on an invasion that decidedly turned the tide in World War II. Historians and military tacticians have aptly termed the sixth of June, 1944, as D-Day. It is indeed a date worth committing to memory.

There is another occurrence, however, that bears that memorable date. This particular inci-

dent was not hailed with confetti; nor was it received with great joy; nor did it affect as many people. Quite to the contrary—this was a day of grave dolor for the peoples of South Carolina and, especially, Clemson College.

Dr. Robert Franklin Poole, our venerable and esteemed president, terminated a truly awe-inspiring life on the sixth of June, exactly fourteen years after D-Day. Yes—everyone everywhere will forever remember the sixth day of June; but many, many persons will bear that date in mind for two reasons.

The countless epitaphs that have been offered up in regard to this wonderful old gentleman have not, can not do him justice. Words are incapable of describing a man of this calibre. The physical, tangible articles that were wrought during his administration will live eternally.

There are other abstract and intangible things, though, that, in some way, seemed to characterize this highly revered man. They were apparently contagious and lastingly invincible, for the spirit of these little invisible attributes still seem to hover over the Clemson campus. You can see them if you try—maybe you'll see them when you sing the Alma Mater and an odd chill runs up your spine; maybe they'll become visible when you present a hearty greeting to that little unwanted odd-ball who rooms around the corner; maybe you'll see them at the pep-rallies this fall when you hear 3700 voices cheering in unison. They are present in the atmosphere of the Clemson he loved and, like the physical evidence of his prowess, live eternally.

Ironically, Dr. Poole and Clemson College were born the same year. As both institutions grew and prospered, they encountered each other, loved each other, and became so closely associated that we often regarded them as one. The Big Chief is no longer with us, but the other part of his personality remains. It is Clemson College.

We will miss his tall elegant figure, his great wisdom and guidance, his warm smile, his casual charm—everything that he represented. Quoting from one of the many post-mortem articles concerning this eminent leader: "Robert Franklin Poole's legacy is a greater, more prosperous and happier South Carolina. His memory, his works and his spirit of Clemson will linger with the untold generations to come. His monument is Clemson."

WAS EDUCATOR, BOTANIST

Dr. Poole Won Students' Respect, Admiration As No Other Man Has

By BO COWARD
Tiger Feature Writer

There is no man in the history of Clemson College who has won more respect and admiration from the students of Clemson than the late Dr. Robert Franklin Poole. It is only proper, then, that we, the students, pause at the beginning of this school year to pay tribute to Dr. Poole.

Dr. Poole rendered his first service to Clemson as an undergraduate by serving as a student assistant in the botany department. After receiving a bachelor of science degree here in 1916, he went to Rutgers. There he earned his Master of Science degree in 1917 and his Doctor of Philosophy degree in 1921.

Until 1940 when Dr. Poole accepted the presidency of Clemson, he was engaged in teaching or research work in plant pathology. He served at Rutgers, University of North Carolina and New Jersey Agricultural Experiment Station. His contributions to society in this field were great.

His eighteen years as president of Clemson were great years of progress for the college. At the beginning of his presidency he had the difficult task of guiding the college through the rough war period and the era of postwar inflation. In more recent years he supervised Clemson's transition from a small state school to a major educational institution. His activities along these lines and all of his presidential activities were characterized by capable leadership, wise administration, and careful planning for the future.

His eminence as an educator and botanist can perhaps best be seen by an examination of the honors bestowed upon him and the activities in which he engaged. Dr. Poole's honorary degrees include a doctor of science degree from Clemson, a doctor of law degree from the University of South Carolina and a doctor of letters degree from Furman University.

He was a fellow of the AAAS, a member and president of Southern Phytopathological Society, a member of American Phytopathological Society, the American Mycology Society, the American Association of University Professors, American Horticultural Society, North Carolina Academy of Science, Patrons of Husbandry, American Legion, Phi Kappa Phi, Alpha Zeta, Sigma Xi and Phi Phi Phi.

Also, he was a member and president of the Association of Land-Grant Colleges and Universities, the Association of Southern Agricultural Workers, the South Carolina Association of Colleges, and Secondary Schools.

It is no wonder that the memory of Dr. Poole — Clemson's great leader, educator, scientist, citizen and friend — brings warm memories to those students who knew him and happy thoughts to those who only knew of him.

College Graduates Go South For Industry

Recent-year Clemson graduates in mechanical engineering have given industrial progress, and its potential future, in the southeastern states a resounding vote of confidence.

A two-year survey by the department, headed by Dr. J. C. Cook, Jr., shows that 90 percent of Clemson's mechanical engineers since 1956 have accepted jobs in the southeast.

Dr. Cook reports that 95 percent of the graduates have joined large companies. The aviation industry claimed 30 percent but Dr. Cook states that this percentage has declined in the last three years with decreased defense activities.

Public utilities and TVA have attracted 18 percent of the graduates; manufacturing industries 15 percent; chemical industries 13 percent; Bell System including

Western Electric 10 percent; graduate school three percent; air conditioning two percent and miscellaneous, nine percent.

"It is apparent," says Dr. Cook, significantly, "that Clemson is not educating engineers at the expense of South Carolina taxpayers . . . only to have them go north."

NEW MINISTER

THE REV. S. W. HOGUE

Presbyterian Minister Is Named Here

The Rev. S. Wylie Hogue, Jr., pastor of First Presbyterian Church, Wadesboro, N. C., accepted a request from Campus Christian Life Committee, Synod of South Carolina, Presbyterian Church to minister to Presbyterian students at Clemson, effective September 1, 1958.

Mr. Hogue is a native of Camden, S. C. Prior to receiving his bachelor of divinity degree at Union Theological Seminary in Richmond, Virginia, he graduated from Clemson. While at Clemson he was associate editor of "The TIGER", member of Blue Key and Y.M.C.A. Councils, head cheerleader and Cadet Colonel.

At present Mr. Hogue is member of the Youth Advisory Committee and Recreation Workshop's Steering Committee of the General Assembly, Board of Christian Education of the Presbyterian Church.

Mr. Hogue is married to "Jo" Lindsay, formerly of Cheraw and graduate of the University of South Carolina. The Hagues have three children, Carol, 10; "Sandy," 8; and Betty, 4.

Col. Tull Leaves Campus To Retire

Col. Lloyd H. Tull, professor of air science at Clemson College, has been reassigned to Headquarters, Air Force ROTC, Maxwell Air Force Base, Ala., for retirement after completing more than 30 years active duty with the U. S. Air Force.

He came to Clemson in September, 1952, where he has headed the air science program since. During the 1954-55 school year he served as commandant of cadets.

Col. Tull is being replaced at Clemson by Col. Claude B. Thompson, of Camden, Ala.

Lyons And Watson Win Lowenstein Textile Awards

Robert W. Lyons of Orangeburg and R. Garland Watson of Taylors have been awarded the Leon Lowenstein scholarships in textiles.

Lyons, son of Mr. and Mrs. Woodrow W. Lyons, was captain of the Orangeburg High School band, member of the All-state band, vice-president of the Math Club and Latin Club and a delegate to the Southern Association of Student Councils conventions in Tulsa, Oklahoma.

Watson, son of Mr. and Mrs. Truman B. Watson, graduated from Paris High School in 1957 where he scored the highest in the school's history on senior achievement tests.

The Leon Lowenstein scholarship is worth \$2,400 for four years of college. Last year's recipient of the scholarship was William P. Kennedy of Manning, Kennedy, whose scholarship is renewed for the sophomore year, had a 3.26 grade point ratio in his freshman year.

The J. P. Stevens and Company scholarship in textiles has been awarded to S. Howard Jones of Sumter. Jones, a 1958 graduate of Edmunds High School in Sumter, enters Clemson this semester. He is the son of Mr. and Mrs. S. Howard Jones.

CLEMSON'S GREATEST LOSS

DR. ROBERT FRANKLIN POOLE

Laundry Welcomes Freshmen

Mr. Thomas B. Rhymes, head of the Clemson laundry, wishes to welcome all freshmen and encourage them to take full advantage of the laundry facilities. On behalf of the laundry workers, Mr. Rhymes would like to thank the old students for their full cooperation in making the laundry service a great success this past year.

Several coeds in the past years have used the laundry and have found it to be very economical. Mr. Rhymes encourages more coeds to the laundry since it is for their benefit as well as the male students. Those coeds who send their laundry will pay for it on the piece work basis instead of the bundle rate as dormitory students do.

A list of unclaimed laundry from the past year is posted in the dormitory office and in the room where laundry is picked up. Also cards will be sent to those students who have not claimed their laundry.

Other services which the laundry offers are clothes pressed while-you-wait, dry cleaning, and extra pieces done on the piece-work basis.

The laundry has increased their competent staff to 92 with the enlargement of the student body. Since the new equipment was installed last year, the laundry will be able to meet the schedule of cleaning approximately 15,000 shirts and 6,500 trousers a week—not to mention other flat work.

The laundry will be open from 7:30 to 5:30 week days and from 7:30 to 12:00 on Saturdays. The same schedule which appears on the laundry slips will be followed this year. Student bundles can be carried to the laundry from 7:30 to 5:30 on Mondays and Tuesdays and from 7:30 to 5:00 on Wednesdays.

New Camellia Named For Former College President Dr. Poole

A new variety of camellias has been named "Dr. Frank Poole," for the former Clemson College president, Dr. R. F. Poole, who died in June.

Originated and propagated by Halcyon Farms Nursery, Union Springs, Ala., the variety is a beautiful ivory white, similar in formation to "Pride of Descanso."

It is an incomplete double—loosely constructed and has yellow stamens interspersed with the up-

R. C. Edwards Named To Post Of Acting College President

By ED GETTYS

Associate Editor, The Tiger

On June 8, 1958, the Board of Trustees of Clemson College held an Executive Session. Two days later Vice-President for Development R. C. Edwards was called to Columbia. It was there that he and the Southeast were informed of his elevation to Acting President of Clemson.

Since that time Mr. Edwards has very adequately filled the enormous vacancy caused by Dr. R. F. Poole's untimely death.

Bob Edwards was born in Fountain Inn, S. C.; there he attended the local public schools. Deciding upon Clemson College to further his education, he entered as a freshman in September, 1929. Four years of hard work led to a B.S. degree in Textile Engineering in June of 1933. Twenty-three years in the textile industry followed, interrupted only by four years of active duty in the Army.

Fort Meade was Mr. Edwards' first home in the service. After two years, in 1944, he was affiliated with the General Staff Corps in Baltimore. There he became a director of distribution services as Staff Supervisor of Supply Activities. In 1946 he was discharged with the rank of Major.

Returning to South Carolina and textiles, he became plant manager of Deering-Milken's Abbeville concern. From 1948 to 1956 he served as Treasurer and General Manager of the same.

Early in 1956 Mr. Edwards was confronted with a decision which would greatly affect his future as well as that of textiles and education. On the first of July of that year, he became Vice-President for Development of Clemson and continued in that capacity until the Board of Trustees named him Acting President.

Another momentous occasion in the life of R. C. Edwards was his marriage to the former Miss Louise Odum of Red Springs, N. C. Bob and Louise have two children—Bob, Jr., a KA and student at the University of North Carolina.

right petaloids. It is unusually cold resistant having bloomed beautifully after 12 and 14 degrees on consecutive nights.

The late Dr. Poole created the Camellia Test Garden at Clemson and sponsored irradiation of both camellia seeds and living liners.

Dental School, and Nancy, an entering freshman here at Clemson majoring in arts and sciences.

Mr. Edwards' views as chief administrator of the college are far-reaching and very encouraging. He feels that the student body along with the faculty in its relation to the students is the object of chief concern to this institution. His administration has made extensive plans for improving the educational, social and recreational aspects of the college, some of which are now being initiated. He wants the student body to be assured that much may be accomplished in this program through the close cooperation of all associated with Clemson.

Mr. Edwards has stated that his has been an uneventful life. In this case such modesty is certainly unwarranted. One only need look at the tremendous strides Clemson has taken since his arrival. Through his devoted service, this college can only continue to grow in stature and quality.

M. M. Cooper, Jr. Wins Scholarship

Martin M. Cooper, Jr. of Greenville has been awarded a \$600 Owens-Corning Fiberglass scholarship for 1958-59. Martin is a ceramic engineering student. He is the son of Mr. and Mrs. Martin M. Cooper of Greenville and attended Parker High where he was president of the student body in 1955-56. Martin has a cumulative grade point ratio of 3.87.

The 1957-58 scholarship awarded to E. Randall Poole of Travelers Rest has been renewed for next year. Randall is the son of Mr. and Mrs. William P. Poole. He is married and has three children. Randall earned high honors in the first semester of the past year. He graduated from Travelers Rest High School and now also serves as music director of the First Baptist Church in Walhalla.

Welcome Back

Last week we welcomed the freshmen to our Tiger campus for the first time. This week may we welcome back our upperclassmen. In last week's paper we oriented the freshmen to some of our fine traditions. But this is not sufficient. It is up to you, the sophomores, juniors and seniors to take over where we left off. You have been here long enough to "learn the ropes." It is your responsibility to see that they are carried out and continued at this fine institution of higher learning.

As many of you returning upperclassmen may have noticed, this year's freshmen sound sort of weak in the dining hall, in fact, terrible. Every freshman is to know the Alma Mater and the school cheers. There will be a pep rally this Friday at 7:00 p.m. You will have to know at least the words to all the cheers by this time. Let's "get on the ball," rats. Let's not let our school spirit fall down. You upperclassmen should make sure that every rat is cheering just as loud as he can, and that he also knows all the cheers. It is your responsibility.

Three Cheers

Last year's baseball team compiled one of the most impressive records in the history of baseball at Clemson College. The Tiger's first stop on their road to fame was the ACC playoff game in Gastonia. Behind the brilliant pitching of Junior Harold Stowe, the Bengals defeated UNC, 4-1.

With one trophy under their belt, they went into the District 3 playoffs. After dropping their first outing to Florida, the Tigs came storming back to defeat George Washington and Florida State, the team favored to win. Then came the day of joy for the Bengal men, when the Tigers took both ends of a double header from Florida and, with it, added the District 3 trophy to their increasing list of honors.

And now they were off to the coveted NCAA College World Series in Omaha. The Tigers took the first game behind Stowe, but lost the next two games to be dropped from the tournament.

Hats off to Coach Bill Wilhelm and his Bengal men in his rookie season as head baseball coach.

This year, Coach Howard's gladiators will play in one of the finest and largest stadiums in the conference. The seating capacity has been increased from 20,000 to 38,000, all these seats being along the sidelines. A beautiful new scoreboard and a massive and well-equipped press box have also been added.

The Tigermen have received several high ratings for the coming season in pre-season polls. Playboy, taking time out in their search for beauty, found our Tigers powerful enough to rank them fifth in the nation and first in the ACC. Look was not so favorable, as they rank us only eighteenth in the nation and third in the conference. But, they did pick us as the dark horse in the South. Football Scouting Reports rates us eighth in the nation. These do not satisfy Clemson, however, as the entire student body thinks we have the best team in the nation. Let's go, Tigers!

Attention

Ah! Mr. Penland. We see that you are up to your old tricks again. So you don't think that Clemson has as good a team as the ratings they have received. Listen, Greasy (Geise) Lover, the mighty Tigers will run any team into the ground that the Gamecocks are ever able to send crawling out onto a football field. As for Playboy, we feel quite assured that they are as capable of picking football teams as they are of picking beautiful girls. In fact, we will see just how wrong you are on October 23 of this year in Columbia.

Ticket Procedure

Tickets for all Clemson home games will be sold on the Loggia in the same procedure as they were last year. Under this system, Seniors will pick up their tickets on the preceding Monday, the juniors on Tuesday, the sophomores on Wednesday, and the freshmen on Thursday.

Season date tickets can also be picked up at this time on the Loggia. You must bring your date ticket with you when you pick up your ticket in order to pick up a ticket for your date. The price of date tickets is ten dollars. No tickets can be gotten at the field house for you or your date. They must be obtained on the Loggia when they are selling student tickets. As you know by this time, this week will run on an abbreviated schedule due to class registration. You must have your ticket and ID card in order to get into the stadium. All seats are reserved.

Coach Frank Howard (left) here thanks Leo Wright, designer of the Wunda Weave Carpet Co., of Greenville, for the world's largest college banner which will officially be given to Clemson Saturday immediately preceding the Clemson-Virginia game. W. W. Pate, Sr., president of Wunda Weave, will make the presentation and R. C. Edwards, acting president of Clemson will accept on the part of the school. The banner measures 104 feet long and is 13 feet wide. Five-foot orange letters inscribed on a purple background spell out C-L-E-M-S-O-N down the middle and a two-foot orange border blocks all sides. (Clemson sports photo).

NEW SCOREBOARD

Stadium Gets New Look; Banner To Be Presented

By BOB BURNS

A new and important page will be written in the history of Clemson's events and activities when the powerful Tigers open their 1958 football season this week. Not only will the Bengals be opening in one of the most modern football stadiums in the South but they will also be presented the largest and most unusual college banner in the United States. But to top it all; a new, animated scoreboard in the shape of a Tiger—that does almost everything except getting down to play in the game—will be installed.

The new scoreboard (to be installed next week) will be completely electrically operated and will measure 40x21 feet. It will be placed in the east end of the new stadium opposite the present scoreboard. All important data such as score, yard line, downs, quarters, and time left to play will be included. Inside a giant football, the time left to play will be recorded in minutes and seconds—the seconds ticking off and being readable at a glance.

Over this football will be the Tiger—which goes all hay-wire when a touchdown is scored. If it is Clemson who has scored, the Tiger, well pleased, will wag its tail; light up its eyes; and let out a roar which is hoped to be heard for some two miles. However, the opponents, not so fortunate, will only get a spray of tobacco juice toward their bench as their reward.

The manufacturer of this scoreboard, who builds all types all over the country, claims that the Clemson scoreboard will be one of the best in the nation and is the only animated one known. It has been said that it is to serve a three-fold purpose: 1. Build up the football team's moral; 2. Keep the famous "Clemson Spirit" at its highest peak throughout the entire game; and 3. To scare hell out of the Bengal opponents!

Memorial Stadium, given its "new look" which, incidentally, cost a total of \$330,000 since last season, will be ready for the opening game. The old stands held 20,500 persons, but with the new additions the total has been raised to 38,000. The budget included the new seats, re-planting of the playing field, a new press box, concession stands, rest rooms, the new scoreboard and the president's box.

The press box, located atop of the south stands, will accommodate a total of 74 persons seated. In addition, there are two rest rooms, a duplicating room and a concession booth on the first

floor. The second floor includes: two radio booths, two field telephone booths, a public address booth, and a booth housing the communication center of the stadium. Also on the second floor is a 29 foot open space for Clemson and visiting team movies, a rest room, and a dark room which will be wired to send wirephotos. Still photographers may use the 30 foot unprotected top.

Carrying the work to the gridiron itself, the playing field was dug up and five drainage ditches dug from one end to the other. The was placed at the base of the ditches and then filled with gravel and finally dirt to afford a top notch drainage system. Over 30 tons of compost was distributed on the playing field before it was sprigged with Tiff lawn grass. Agronomy experiments proved this to be the best grass known for football fields. Only a few other colleges in the nation use this grass.

The stadium itself is one of the best planned anywhere. Every seat being on the sideline gives the Tigers more sideline seats in the conference. There are ten portals to serve each side and there is not a walkway in front of any row anywhere in the stadium. Even persons sitting on the front row have a fine view since it is some six feet above the ground level. With all of its modern features it is certainly

(Continued on page 5)

Intramural Program Begins Monday

Next Monday and Tuesday, September 22 and 23, Coach Bill Wilhelm, who is director of intramural athletics, will launch the 1958 program. Swimming and tennis will be the first sports open to the students of Clemson. These two sports are individual and should attract many participants. Coach Wilhelm pointed out that the varsity coaches of tennis and swimming are going to watch very closely those taking part in hope of finding talent for their teams.

Touch football will begin October 3. While this sport is still open to sections and halls, Coach Wilhelm hopes that

more clubs and organizations will sponsor a team. Wilhelm also stated that he was pleased with last years turnout for football which numbered about 350.

Several new sports have been added to the curriculum which include: tennis, cross country, track, horseshoes and handball. Those left over from last year are: swimming, touch football, table tennis, pool, basketball, volleyball, soft ball and golf.

One of the new rules that have been added will keep any one team from monopolizing the league. This rule states that not more than three varsity athletes

can be listed on one roster. Coach Wilhelm believes that this new rule will help spread out the talented athletes among all the teams.

This year, for the first time, a section of the bulletin board in front of the post office will be reserved for intra-murals. On this board will be found schedules and entries and the standing of the teams in their leagues.

Freshmen especially and anyone else interested in borrowing sports equipment are reminded of the intramural cage behind Tillman Hall. Basketball, bats, softballs and other equipment can be borrowed for an allotted time.

Sooners Future Foes

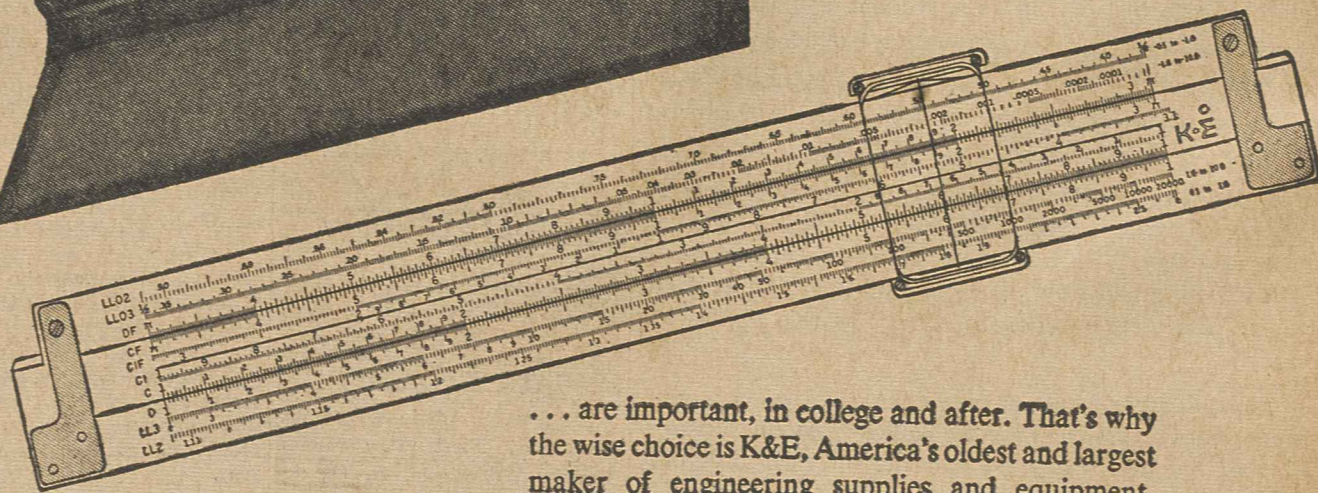

Clemson Athletic Director, Frank Howard, announced last Friday that his Tigers would kick-off their 1963 football season against the Oklahoma Sooners at Norman, Oklahoma. The date is September 21, and is a one-year contract.

Oklahoma is only the third team from the Big 7 conference to meet the Tigers in athletic competition. Clemson holds two victories over Missouri and a loss to Colorado. Oklahoma, on the other hand, has never suffered defeat to an A.C.C. school having defeated Maryland, North Carolina State, Duke and the University of North Carolina.

For engineering freshmen...

drawing
instruments
and
slide rules

... are important, in college and after. That's why the wise choice is K&E, America's oldest and largest maker of engineering supplies and equipment.

When it comes to Slide Rules... take the K&E Deckrig®:

Its versatile scales team up to give faster solutions of complex problems. A dual purpose D scale and three LL scales cover a log log range of 1.00... to 22,000. And the A-B scales make quick, non-stop work of square root derivations. Sharp, engine-divided graduations permit accurate readings in a hurry.

And... look at K&E Drawing Instruments.

But remember, there's more to drawing instruments than the way they look. It's the important "extras," such as accuracy, materials, workmanship, manufacturer's reputation, that determine genuine value. Every K&E set—and they come in a wide price range—offers you the "extra" features that mean extra value.

"Your K&E College Buying Guide"—

will give you useful information on the materials you'll need for your engineering courses... 36 pages, with plenty of pictures, and handy check-list. Get it at your college store.

Less tars
& More taste

DON'T SETTLE FOR ONE WITHOUT THE OTHER. CHANGE TO L&M AND GET 'EM BOTH.

Such an improved filter and more taste! Yes, today's L&M combines these two essentials of modern smoking enjoyment—less tars and more taste in one great cigarette. L&M's patented filtering process enables today's L&M to give you, puff by puff, less tars in the smoke than ever before. And L&M gives you more taste, better taste than any other cigarette.

Light into that Live Modern flavor!

Tigs Tackle Cavaliers In Season's Opener

September 20, 1958, marks the beginning of a new football season for our Tigers, but this is not all. Among the structural additions to our growing campus has been the remodeling and enlargement of "Death Valley."

To you "Rats" who may not be familiar with the term, "Death Valley" is the name given our stadium. It is a suitable name for very few times have visiting teams ever escaped defeat in our "Death Valley." Now that the improvement has been made, we must support the Tigers even more to make sure that defeat doesn't come our way this year. This begins this Saturday.

Virginia is considered a very weak team by many experts, but weak teams and underdogs have been known to upset or give a scare to the big names in college football. A very good example of this would be the Wake Forest-Clemson game last year. It was only

Bengal Starting Units All Set For Virginia

By BOB BURNS AND JOE DEMPSEY

Coach Frank Howard's "country gentlemen" will take to the gridiron this Saturday afternoon at 2 p.m. to open the 1958 football season, as the University of Virginia invades Tiger Town as their first pigskin opponents. The Tigers will be opening in their new Memorial Stadium, one of the most modern football stadiums in the country, and a near capacity crowd of 38,000 promises to be on hand for the kickoff. It will be the first time in the past 29 years that Clemson has not played its traditional opener against P.C.

The likely starting lineup shapes up as: left end, Ray Masneri, one of the defensive standouts and a returning starter from last year's team. At right end will be Jack Webb a letterman from the 1957 season, and a fine pass receiver. Jim Padgett is set at left tackle and Lou Cordileone, returning from the service, seems to be the choice at the right tackle spot.

At left guard will be returning defensive star, Jim Payne, who was a starter at this same position last year, and at right guard, sophomore sensation Dave Olson, younger brother of tackle Harold Olson, appears to hold the honor of being the only soph starter. Starting at center, the Tigers have captain Bill Thomas, who Coach Howard rates as second to nobody in the land.

In workouts this past week, minor injuries have hampered the team; among those who have

Dave Lynn at the guards; Paul Snyder at the center post; Lowndes Shingler at quarterback; Bill Mathis and Sonny Quesenberry at the halfbacks; and Doug Cline at fullback.

Another key man in the Cavalier backfield, if he isn't hurt, will be senior halfback Jim (Twang) Roberson. The 5-11, 187 pound

ney, playing his first full season of college football last year, finished second only to the Tiger's Harvey White in passing yardage. The 5-10, 168 pound senior from Conshohocken, Pa. missed most of his freshman and sophomore seasons due to injuries.

(Continued on page 6)

Clemson's Opponents

As the 1958 football season gets into full swing on September 20th, we find the 1958 Clemson opponents hard at work to win their openers. Sunny Jim Tatum's Tar Heel team will open their season against arch rival conference foe, North Carolina State, the Tars will be heavily favored to win this home encounter. North Carolina will be depending heavily on quarterback Jack Cummings to start the Tars off on the victory trail in what is expected to be Coach Tatum's best season since returning to his alma mater. The boys from Chapel Hill have been rated in the top ten by all the big news services.

The Tiger's third foe of the year, Maryland, which promises to be the dark horse of the conference, takes on the improved Demon Deacons of Wake Forest on the Deacs home field. The Terps will be highly favored to win, mainly because of players like quarterback Bob Rusevlyan, halfbacks Ted Kershner and Bob Layman, and guard Rodney Breedlove.

The Commodores of Vanderbilt are underdogs this weekend to the University of Missouri, but Vandy will bank on halfback Tom Moore and fullback Jim Butler to lead them to an upset on the Missouri home field. The Tiger's traditional rivals, the Gamebirds of Carolina, open at home against the Duke Blue Devils. Head rooster Warren Giese is again relying on halfback stars Alex Hawkins and King Dixon; other top notch players include quarterback Bobby

Bunch, guard Jimmy Merck, and tackles Ron Rogers and Ed Pitts. The Blue Devils will be favored by most people, but only by a whisker.

The Wake Forest Demon Deacons open at home against Maryland's Terps, hoping to spring an upset. Coach Paul Amen's boys can't go anywhere but up this season, in 1957 the Deacs were winless. Quarterback Jim Dalrymple is the top Wake threat, but is expected to have plenty of help from Norman Snead, a frosh standout quarterback from last season.

The Georgia Tech Yellow Jackets go against the Wildcats of Kentucky on the Wildcats home grounds, and will be favored to win the conference game. The key of the Tech offense is quarterback Fred Braselton, a dangerous passer and good ball handler. The North Carolina State Wolfpack opens at Chapel Hill against the highly rated Tar Heels from the University of North Carolina. The Pack won the conference championship last year, but graduation took its toll, and Coach Edwards is counting heavily on boys coming up from his freshman team. Fullback Don Hafer is expected to be the Pack's biggest threat.

The Purple Hurricane from Furman University, under new head coach, Bob King, are set to try to improve on their 1957 record as they go against the Florida State Seminoles in Tallahassee, Florida. The Purples lean heavily on the strong arm of quarterback Billy Baker to pass them to an upset.

FRANK CALL

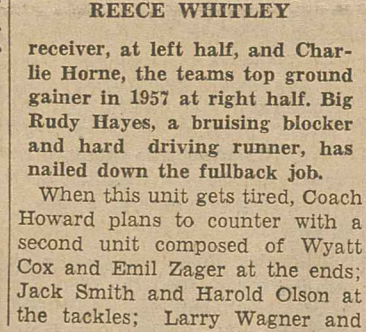

slight injuries that are expected to mend by game time are: ends Emil Zager and Sam Anderson, center Bill Thomas, halfbacks Sonny Quesenberry, George Ustry, and Rabbit Chatlin, and fullback Mike Dukes.

Much is known and yet unknown about Virginia's football prospects for the coming season. To begin, Virginia has a completely new coaching staff along with new head coach, Dick Voris. Teamwise, the Cavaliers will be fairly well fixed in the backfield, but the line will represent real problems. Although the tentative 1st team includes eight lettermen, the tentative three deep squad includes only 13 lettermen, six linemen and seven backs.

Gone from the 1957 team are such outstanding veterans as Harold Outten, a superior tackle; Jim Keyser, another tackle, although winning All-ACC recognition as a center in 1956; Fred Polzer, the ACC's leading pass receiver for the past two seasons; and Jim Bakhtiar, a very strong fullback who finished his most brilliant season last year with the second best ball-carrying average in Virginia's history.

Aware of the fact that Virginia will be lacking in the physical size shared by the other Atlantic Coast Conference teams, Cavalier coach, Voris claims that they will be playing a wide open style of football. By passing about 50 per cent of the time and the use of speed and shiftiness Voris hopes to offset the brawn of their opponents.

Heading a wing-T offense, designed to release three receivers immediately on their opponents, will be ace quarterback and co-captain Reece Whitney. White-

REECE WHITLEY

receiver, at left half, and Charlie Horne, the teams top ground gainer in 1957 at right half. Big Rudy Hayes, a bruising blocker and hard driving runner, has nailed down the fullback job.

When this unit gets tired, Coach Howard plans to counter with a second unit composed of Wyatt Cox and Emil Zager at the ends; Jack Smith and Harold Olson at the tackles; Larry Wagner and

Bill Thomas Is Elected Captain Of 1958 Bengal Football Squad

By JOE DEMPSEY

Meet Bill Thomas, captain and center for the 1958 Bengals. Bill is a rising senior from Layton, Pennsylvania, majoring in education, is an even six feet tall, and weighs 217 pounds.

Bill is a member of the Block C

Club, his favorite prof is Dr. J. C. Green, prefers classical music, and enjoys eating food in general. Bill started playing football back in 1951 at Perryopolis High School in Dayton, playing at end his first two years, halfback his third year, and was switched to fullback his senior year.

After finishing a lustrous high school career, Bill decided to ac-

cept a football scholarship to Clemson College, and take it from Bill, he has never been sorry for one minute. In 1954, Bill played fullback for coach McMillan's strong frosh eleven, and was one of the mainstays of the team. His sophomore year, when he came up to the varsity, Bill was bonked because of over-supply of fullbacks.

In 1956 it was a different story for big Bill, he was moved to the pivot post to strengthen a soft position in the Tiger forward wall.

BILL THOMAS

cept a football scholarship to Clemson College, and take it from Bill, he has never been sorry for one minute. In 1954, Bill played fullback for coach McMillan's strong frosh eleven, and was one of the mainstays of the team. His sophomore year, when he came up to the varsity, Bill was bonked because of over-supply of fullbacks.

In 1956 it was a different story for big Bill, he was moved to the pivot post to strengthen a soft position in the Tiger forward wall.

Do You Think for Yourself? (TAKE THIS TEST AND FIND OUT!*)

Do you believe you could fool a lie-detector machine if you put your mind to it?

YES ☐ NO ☐

Do you believe society should adopt new ideas at the expense of old traditions?

YES ☐ NO ☐

Are you completely at ease when people watch you at work?

YES ☐ NO ☐

Do you judge your parents as you do other people?

YES ☐ NO ☐

Do your emotions ever lead you to do something that seems unreasonable, even to yourself?

YES ☐ NO ☐

Do you try to plan ahead rather than make snap judgment decisions?

YES ☐ NO ☐

If your roommate suddenly inherited a million dollars, are you sure your relationship would remain the same?

YES ☐ NO ☐

Can you honestly say you pay more attention to political issues than to the personalities of the candidates?

YES ☐ NO ☐

The Man Who Thinks for Himself Knows...

ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

One more question: Do you think about the filter cigarette you choose or just smoke any brand? If you're the kind of person who *thinks for himself* . . . you use judgment in your choice of cigarettes, as in everything else.

Men and women who think for themselves usually smoke VICEROY. Their reasons? Best in the world. They know the difference between fact and fancy. They know that only VICEROY has a *thinking man's filter* and a *smoking man's taste*.

*IF YOU HAVE ANSWERED YES TO 6 OF THESE QUESTIONS, YOU ARE A PERSON WHO THINKS FOR HIMSELF!

©1958, Brown & Williamson Tobacco Corp.

Familiar pack or crush-proof box.

DID MATRICULATION EVER CONFUSE HIM?

Matriculation often does strange things to Clemson rats and upperclassmen alike. Many just stand and look confused; others just go to bed and forget it all. This rat, unidentified because of his quick exit for help, pulled the ultimate in first-day antics as he mistook steps leading from the old quadrangle to the field house parking lot for a ramp as is at the opposite end. For all we know, the car may still be there—the old quadrangle is just too far from the office. (TIGER photo by Bill Johnson.)

Eight Clemson Residents Made Honorary Alumni

Eight Clemson residents have been awarded honorary memberships in The Clemson College Alumni Association. They are: M. E. Bradley, Dr. F. H. H. Calhoun, Dr. S. J. L. Crouch, Dr. D. W. Daniel, Dr. S. B. Earle, S. M. Martin, J. P. LaMaster, and F. H. Clinkscales.

Professor Bradley, department head and professor emeritus of English, is an 1898 graduate of Erskine College, and did graduate work at the University of Chicago and the University of North Carolina.

Dr. Calhoun, dean emeritus of chemistry and geology, and professor emeritus of geology and mineralogy, is an 1898 graduate of the University of Chicago, where he received his Ph. D. in 1902.

A native of Australia and a graduate of Scotch College, Dr. Crouch is department head emeritus of religion and retired pastor of Fort Hill Presbyterian Church. He graduated from Biblical Seminary, New York, in 1915; earned the B.D. at Hartford Theological Seminary, 1922, and the Th. D. at Union Theological Seminary, Richmond, Va., 1937.

Dr. D. W. Daniel, dean emeritus of arts and sciences and professor emeritus of English, is an 1893 Wofford graduate. He earned the M.A. at Vanderbilt in 1901, and received the Litt. D. in 1914 from Wofford.

Dr. S. B. Earle, dean emeritus of engineering, graduated from Furman in 1898, earned the M.A. a year later, the M.E. at Cornell in 1902, and received the L.L.D. from Furman in 1932. He is also professor emeritus of mechanical engineering and director emeritus of the engineering experiment station.

Department head and professor emeritus of mathematics, Prof. Martin graduated from The Citadel in 1896, and did graduate work at Cornell, Harvard, and the University of Chicago.

Prof. LaMaster, department head and professor emeritus of dairying, is a 1913 graduate of the University of Kentucky, and earned the M.S. there in 1920.

Mr. Joe Sherman, director of alumni relations, lauded each selection of the association as "an excellent choice of a devoted Clemson man."

TIGS TACKLE CAVALIERS IN OPENER

(Continued from page 5)

Roberson was leading ball carrier as a freshman but, due to injuries was out the majority of his past two seasons.

Replacing the fullback spot occupied by Bakhtiar, last year will be a surprising sophomore, John Barger. Barger is 6 ft. and weighs 190. Rounding out the Cavalier backfield will be speedster Sonny Randle, a 6-1, 178 pound wingback who can run the 100 in 9.7 seconds. Randle started nearly all the games as a sophomore and will be the flanker in this years backfield.

Coach Voris admits that the largest weakness of the Cavalier team will lie in the line. The tackle position was so short that Oakley Cheney, who hasn't played football in four years, volunteered for the team and is now one of the second string tackles. The first string tackles will be letterman Irvin Shendow (208) from Winchester, Va. and Wayne Whelan, (225) from Colonial Heights, Va. Whelan, assigned to right tackle, improved greatly in spring practice.

Another one of the faster players in the conference is track star, Jack Gravins. Gravins, now an end, played his previous two years as a halfback. The other end, senior Bob Williams, is larger than the 178 pound Gravins. Williams stands at 6-1 and tips the scales at 195. This pass catching trio of Williams, Gravins, and Randle will be a big factor in the success of the Cavaliers new offense.

The most experience in the Cavalier line will be at center. Bob Canevari (206) switched from guard to center last year and became one of the teams most outstanding linemen. Canevari, also a senior, has played the tackle position too.

Rounding out the Virginia first unit are guards Frank Call (190) and Jim McShane (180). Both are seniors. Of Call, Voris claims, "I would not trade him for any guard in the conference." Captain Call broke in as first string guard during his soph season and has held it ever since. McShane, although one of the lightest linemen in the conference, is very fast and aggressive.

Despite the fact that Virginia is apparently weak and are predicted to battle Wake Forest for the ACC cellar the "Baron," coach Howard will not be taking the Cavalier squad lightly. Although Clemson has won all three meetings against Virginia, the battles have been rugged—as indicated by the scores: 20-7 in 1955; 7-0 in 1956; and 20-6 in 1957. Also, it may be reminded that the Cavaliers pulled a startling upset over UNC in the season finale last year.

There's one point for sure: Howard's Tigers will be under pressure. Not only have the Bengals been picked as the cream of the ACC by many sportswriters but also have been highly ranked in the nation by many pre-season forecasts. Thus, the Virginia opener will be a goal for the powerful Tigers—a goal in which they will be trying to prove these predictions correct.

CARVE THE CAVALIERS.

BIDS RECEIVED

(Continued from Page 1)

ments in a substance, chemical reactors for studying various chemical reactions as to rate of reaction, general equipment to study various types of separation processes and other chemical processes.

Groundbreaking ceremonies are scheduled for Saturday morning, Sept. 27. The building will be substantially completed by Sept. 1, 1959.

CLUB NOTICES

TIGERAMA MC

Tryouts will be held next Thursday, September 25, for the position of Master of Ceremonies of the forthcoming production of "TIGERAMA." The tryouts are open to all students. Interested persons should come by the Tigerama Office not later than 7:30 p.m., Wednesday, September 24.

NUMERAL SOCIETY

There will be a meeting of the Numeral Society at 6:00 o'clock tonight in room 118, Chemistry Building. This will be a very important meeting; all members are urged to attend.

VETERAN'S CLUB

The Veteran's Club is operating its book exchange in Meeting Room 1 on the third floor of the Student Center. To sell a book at the exchange, the individual brings it and sets his own price. Members of the Veteran's Club will then sell the book for the fee of 25 cents per book.

The exchange opened yesterday, September 17, and the hours are from one until four p.m., Monday through Friday. It will close September 26.

TIGERAMA

TIGERAMA will be held Friday, October 31, the night of Halloween and Homecoming week-end. This note urges all clubs and organizations to enter skits in TIGERAMA. Now is the time to start on your skit.

For further information, contact Ken Powers, TIGERAMA Skit Committee Chairman; Room A-701, Phone 9145.

AG ECONOMICS CLUB

The Agricultural Economics Club will hold its first meeting of the 1958-59 session at 6:30 p.m., Tuesday, September 23. The meeting will be held in the Agricultural Economics Library on the first floor of Long Hall. All Agriculture Economic majors and other interested persons are strongly urged to attend this very important meeting. Refreshments will be served.

GLEE CLUB

The Glee Club will hold its first rehearsal at six p.m. tonight in Room 27 of the YMCA. Any student is eligible for membership in the Glee Club and those interested in joining are cordially invited to the rehearsal and to schedule an audition. Thirty-five members of last year's Glee Club have returned.

New music has been obtained and several programs have been planned for first semester. The director is Dr. H. H. McGarity and the president is Charlie Toal, a senior in poultry from Columbia.

FOREIGN STUDENTS

The Foreign Students Association of Clemson College has planned a varied and purposeful program for the coming year. The members, representing at least 13 foreign countries, meet on the first and third Thursday of each month.

As the association begins its second year it has seen foreign student enrollment at Clemson increase from 30 to 80. This year it is hoping for its present membership of 19 to greatly enlarge. The main purpose of the club is to entertain and familiarize the foreign students with the college.

Tigerama On Its Way

By BILL HILL

With five weeks, three days and a few assorted hours to go, Tigerama is on the roll.

On Wednesday the Tigerama Office was opened in the Visitors Lounge. The main purpose of this office is to provide a place for all students to come by and sign up to help in the annual production. As has been said before, Tigerama can not succeed without the cooperation and efforts of you, the individual student.

The Alumni Association will back Tigerama until it becomes self-supporting. Blue Key acts as a co-ordinating force for the actual work involved in staging the show. Students themselves write their skits and do the acting in them. Students are to staff the various committees needed to produce such a show as Tigerama. In short, Tigerama is just what Clemson students, including you, make it.

Freshman Camp Held At Camp Greenville

Fifty freshmen took advantage of a great opportunity to get acquainted with other freshmen and get a head start in Clemson life by attending the Freshman YMCA Camp held at Camp Greenville on September 9 and 10.

The camp sponsored by the Clemson YMCA held orientations, and also offered the "Rats" recreation, fellowship, and good food. Also included in the two camps was the spiritual side of campus life and much encouragement was given to the new students to include this in their college life.

The boys that attend this camp are invited to join the Freshman "Y" Council as charter members. Mr. P. B. Holzendorf, Jr., general secretary of the "Y"; Mr. Roy Cooper, Mr. Nash Gray, Mr. B. D. Clineinger, were assisted by members of the school administration as well as members of the YMCA Cabinet in the camp management.

The YMCA encourages all new freshmen to attend the church of their choice and to get acquainted with the ministers and church leaders. Freshmen are also invited to participate in all activities of their church and also Morning Watch held each day at 7:20 a.m. in the Chapel.

Tigerama office hours are from 8:00 a.m. to 7:30 p.m. each and every week-day. Signing up to help involves the overwhelming task (takes every bit of a minute) of filling out an index card so you can be found when you are needed . . . and believe me, you will be needed. If you have any particular preference about the committee on which you would like to work you may request such an assignment and you will be placed there. Tigerama needs stage-hands, electricians, ticket sellers, if you even think you can do something useful, come on down and fill out a card. And don't wait till the last week in October to come down, J. C. Edwards who is in charge of the office loves work, so make him happy and sign up now. More important, however, is the fact that Tigerama is less than six weeks away; time can not be wasted.

Appeals are being made to club presidents for their clubs to work up skits. This is being done because a club such as ASME or Nu Epsilon has an organization within which it operates. In your first club meetings this year the president will in all likelihood bring up something about a skit for Tigerama. I hope you will all consider seriously your organization's being represented in Tigerama by a skit. However, skits are not open to clubs only. Any group, for example a hall like B-7 or just a bunch of boys, who think they have a good idea for a skit are urged to submit it through the Tigerama Office.

We of Blue Key, as the co-ordinating force behind Tigerama, can push just so far and just so hard. It is up to you, the student body of Clemson, to make Tigerama, in the eyes of the public and the College, a greater success than the production last year.

Westinghouse Foundation Allocates \$2,000 For Clemson EE Department Use

The Westinghouse Education Foundation, Pittsburgh, Pa., announced last May the allocation of \$2,000 to Clemson for use by the department of electrical engineering in 1958-59.

Clemson received a similar award from Westinghouse last year. The foundation, recognizing increasing engineering enrollments and an obligation of industry to assist, has established a five-year aid-to-education program.

The electrical engineering department here will again use the funds for purchase of precision laboratory instruments. The equipment will serve both undergraduate and graduate instruction, says Dr. James N. Thurston, head of the department.

The award will help to further the education of the electrical

Married Students To Be Housed In Fifty Duplex Apartments

Fifty duplex apartment units are now being constructed under Clemson's new married students housing program. The \$700,000 cost of the projects is financed by revenue bonds. Construction is by Cecil's Incorporated of Spartanburg.

The brick duplex units will contain 648 square feet; the roofs will be of asphalt shingles; the interior walls will be concrete block painted; and the floors will be asphalt tile over a concrete slab.

Each unit will have a living room, kitchen, two bedrooms, bathroom, hall, closet space, and a storage room. The units will be furnished with an electric stove, a refrigerator, a gas space heater, and a gas hot water heater.

College Faculty Named To List

Prominent members of Clemson's faculty have been selected to appear in Who's Who in America. The new volume lists 50,645 names or about three out of every ten thousand Americans.

G. H. Collings and G. B. Nutt were listed as Agricultural Scientists, G. M. Armstrong as a Botanist, G. H. Aull as an Economist and C. A. Graham as a Librarian. Listed as Higher Education Administrators were H. P. Cooper, M. D. Farrar, H. L. Hunter, F. M. Kinard, R. F. Poole and H. J. Webb. Chosen as Educators were H. M. Brown, J. H. Cochran, C. E. Littlejohn, Jr. and W. H. Washington.

Selected in the engineering field were J. C. Cook, Jr., J. H. Sams, Jr., L. D. Huff, W. L. Lowry, Jr., and J. N. Thurston. O. B. Garrison was listed as a Physical Scientist, R. B. Newton as a Broker—Investment Banker, O. P. Rhine as a Language-Literature teacher, and W. D. Trevillian as a Business Administration Educator.

Selected under the vocations of Architects, Chemists, and mathematicians were H. E. McClure, F. B. Schirmer, Jr., and D. C. Sheldon respectively.

We have a complete line of Formal Wear For Rent. Come in early and be measured for yours and our convenience.
